TEMPERANCE MEETING HELD.

Judge Ibach Addresses the Anti-Saloon

League Meeting.—Mrs. Edmondson

Appears for W. C. T. U.

The Anti-Saloon League meeting held in the Baptist Church last Sunday evening was very largely attended by men, women and friends of all the churches.
Rev. C. M. Bingham presided at the meeting, and two or three appropriate hymns were sung and a prayer was said by Rev. T. V. Sherman, pastor of the First Baptist Church.
Mrs. Edmondson, representing the Woman's Christian Temperance Union, presided at the meeting, and a very interesting paper of the work that is being accomplished under the temperance cause was very largely attended by men, women and friends of all the churches.
Judge H. F. Burt made a pleasing address. He made a report of the National Convention of the Anti-Saloon League, of which he was a delegate. The convention took place at Indianapolis last November. The report was thoroughly enjoyed.
The meeting closed with benediction by Rev. Bingham.

Visiting the City.

Captain J. A. Bryan, of Jacksonville, is a guest of the Austin.

Captain Bryan has a new canoe to be built the present and made the trip along the water front, so that many of his friends and acquaintances could see him. The work was completed very satisfactorily and the financial transactions connected with it were very satisfactory to all parties concerned.

His arrival here at Daytona was in 1900, and after he had been in the place for some time, he was representing the Cable Company, and right here in Daytona he made a magnificent record as a game salesman, having placed twenty-seven pianos in a little over six months. Captain Bryan has just recently moved to Daytona because he says Daytona has been very kind to him, every enterprise he has ever undertaken here having proved a success. He is at the present time, playing a great many pianos in this section.

port that the floral parade to be held on
the 27th inst. will be a success in every
sense of the word. Anderson & Price,
managers of the Hotel Ormond, have
taken hold of the matter and will lend
every encouragement toward making
the affair a success.

Many business houses in Daytona will
decorate for the automobile tourna-
ment. The Daily News office and
Anthony Brothers have already been
decorated, and other business houses
will soon be resplendent with bunting
and flags.

THE SOUTH'S GREAT PIANIST

is in Daytona For a Few Days, a
Guest of Captain Bryan,
at The Austin.

Prof. I. M. Mayer, of Atlanta, Ga., is
visiting our city in the interests of The
Cable Company, and is a guest of Capt.
J. A. Bryan, at The Austin.

Professor Mayer last night performed
for an entertainment given by Professor
Rush for the benefit of the Seabreeze
school. The house was packed, and the
audience was very enthusiastic. If we
can judge by the number of times he
was called back, and the applause, it
was a very appreciative audience, in-
deed.

After the performance a great many
of the music-loving people gathered
around him and greeted him very cor-
dially, begging for an opportunity to
hear him again. He gives another re-
cital this evening, at the Army for Mrs.
Spangler, she being a friend and a pa-
tron of The Cable Company. Professor
Mayer uses a Conover piano, as a rule.

Professor Mayer's sojourn in the city
is an informal visit to Captain Bryan,
who has been very fortunate in placing
a great many Cable pianos here, and his
idea is to utilize the Professor's even-
ings in demonstrating the artistic qual-
ities of the Cable piano, and at the same
time accommodate their patrons.

From the press clippings we have
seen regarding Prof. Mayer, we have no
doubt that he is an artist of the highest
class, and compares favorably with any

in the United States, and it is acknowl-
edged by all musical critics that he has
not a peer in the South, and very few
equals. The people of Daytona and its
environs, are having the opportunity of
their lives to hear an artist of the high-
est order at a nominal price. Such music
as rendered by Prof. Mayer costs in any
of the cities of the United States, from
\$1.00 to \$1.50 a seat. He renders only
classical music.

WILL BE A BIG SUCCESS.

Many Fast Boats Will Enter for the
Palm Beach Motorboat Races.
Cooperation Wanted.

The second annual regatta of the
Palm Beach Motor Boat Association,
which begins January 30, bids fair to
eclipse any event of the kind held in
this country. The prizes, which have
begun to arrive, are magnificent and nu-
merous, and as the entries will show,
some very fast time is sure to be made.

The earnest cooperation of all owners
of boats entering is invited, and particu-
larly is it desired that every boat shall
be at the Royal Poinciana yacht basin
fully two days before the first day of
the races so that the measuring can be
done and all other detail be quickly
handled.

SENATOR MANN WILL BE HERE.

Good Roads Organizer To Attend the
Races.—Praise For the Mag-
nificent Race Course.

Senator A. S. Mann, the Good Roads
organizer, is coming to attend the races
on the Ormond-Daytona Beach, and
will make his headquarters at the Hotel
Ormond.

Senator Mann, in a letter to the
Times-Union, among other things, says:
"The Ormond Hotel will be my head-
quarters from the 22d to the 27th, and
I am anxious to meet those who are
willing to lend a hand in the work of
improving the highways of Florida.

"I am in hopes we may hold Good
Roads meetings during this winter in
the principal cities of Florida, and my
purpose is to organize the State fully for
a strong pull, and a pull altogether for
better roads. No section can afford to
be left out, and the only way this can be
avoided is to make a State movement.

"The racing on the Florida beach was
by the few who first thought of it
sincerely dreamed of in its present value
and relation to all Florida. They hoped
it might be a fast, safe course. They
hardly dared to dream of its exceeding
all others, as it has. In this lies its im-
portance, as the world's record will al-
ways remain and yearly be lowered
upon this now world-wide famous
course, and as this fact is yearly better
understood its value to all Florida must
increase."

TEMPERANCE MEETING HELD.

Judge Ibach Addresses the Anti-Saloon
League Meeting.—Mrs. Edmondson
Appears for W. C. T. U.

The Union Temperance Meeting held
in the Baptist Church last Sunday even-
ing was very largely attended by men-
bers and friends of all the churches.

Rev. C. M. Bingham presided at the
meeting. One or two appropriate
hymns were sung and a prayer was said
by Rev. T. V. Shoemaker, pastor of the
First Baptist Church.

Mrs. Edmondson, representing the
Woman's Christian Temperance Union,
was introduced. She read a very inter-

esting paper of the work that is being
accomplished along temperance lines.
Another hymn was then sung.

Judge B. F. Ibach made a pleasing
address. He made a report of the Na-
tional Convention of the Anti-Saloon
League, of which he was a delegate.
The convention met in Indianapolis last
November. The report was thoroughly
enjoyed.

The meeting closed with benediction
by Rev. Bingham.

Visiting the City.

Captain J. A. Bryan, of Jacksonville,
is a guest of The Austin.

Captain Bryan is not a new comer to
Daytona. Ten or twelve years ago, he
built the seawall and made the fill along
the water front, so that many Day-
tonians no doubt remember him. The
work was completed very satisfactorily
and the financial transactions connected
with it were very satisfactory to all par-
ties concerned.

His second visit to Daytona was in
1900, soon after he embarked in the
piano business, when he was represent-
ing the Cable Company, and right here
in Daytona he made an unprecedented
record as a piano salesman, having
placed twenty-seven pianos in a little
over one month. Captain Bryan feels
very kindly toward Daytona because he
says Daytona has been very kind to
him, every enterprise he has ever un-
taken here having proved a success. He
is at the present time placing a great
many pianos in this section.

MANY NEW CARS ARRIVING.

An Influx of Automobillists With Their
Machines.—All Kind And De-
scriptions Represented.

Daytona is rapidly filling up with au-
tomobiles, and the prospects are that
next month will see the town with more
machines than ever before in its history.
It is not an unusual occurrence to see
fifteen or eighteen on Beach Street in
the afternoon, at one time. To say that
there is 150 machines in Daytona, and
the towns across the river, would be
placing it small.

During the past several days there
has been an influx of automobillists, to-
gether with their cars.

Theodore King, of Boston, has ar-
rived with a 20-horsepower Napier run-
about.

A. Anderson, of Magnolia, Mass., with
a 20-horsepower Oldsmobile.

A 60-horsepower runabout for F. D.
Creamer, of New York. This machine is
capable of carrying twenty-five people.

O. L. Smith, of New York, a 10-horse-
power Rambler.

J. E. Rogers, of Boston, a Stanley
streamer.

B. L. Armstrong, of New London
Conn., a large touring car.

Will Bulletin Races.

Anthony Brothers and the Daily News
have made arrangements jointly to bul-
letin the results of all races on the Or-
mond-Daytona beach, and likewise the
results of the motorboat races at Palm
Beach. A bulletin board will be placed
in front of Anthony's store and as soon
as each race is over the result will be
bulletined.

QUAINT RELIC OF VIRGINIA.

A Walnut Wine Chest is 125 Years Old.—On Exhibition at the Atwood Pharmacy.
Among the quaint relics in Daytona, is a wine chest, belonging to Mr. Carter, of Holly Hill, which is on exhibition at Atwood Pharmacy. This chest is fully 125 years old, and brought to Daytona from Virginia. The Carters were among the early settlers of Virginia, and one of the family fought as a scout under Mad Anthony Wayne, and on the evacuation of Philadelphia by the British, captured a wine chest which was the property of a British officer.
The chest is of walnut, and the lock, hinges and nails are hand made. The chest contains six quart bottles, three at either end. In the center is a tray containing two tumblers and three wine glasses. Below the tray are six pint bottles. All of the glassware is handsomely decorated, and of the very best quality.

DAYTONA AND ITS ATTRACTIONS.

DAYTONA is situated upon the west bank of the Halifax River at its farthest extreme and midway between its source at Hulow Bay and its outlet at Mosquito Inlet. It is in latitude 23, seventy-four miles from St. Augustine and one mile from the Atlantic Ocean, and is acknowledged to be without a rival for beauty among the villages of the South. Its site is upon what is known as high hammock land that was crowned by nature with a most royal growth of majestic forest trees, and among these trees is the town of today, with its beautiful cottages and well-graded walks and streets. The result is that all along the wide avenues that intersect the town are lovely live and water oaks and hickories, many of them draped with graceful festoons of the gray Spanish moss, that overarch the street and walks, and among these are interspersed tall tropical palmettos, glossy-leaved magnolias, fragrant bay and coral-berried holly, and many other varieties, while in many places the wild grape, the trumpet vine and the amplexiclimb climb and cling among the branches forming shady bowers and adding grace and beauty.

The town lies parallel with the Halifax River, and extends for nearly two miles along the shore. The river is the delight of the angler and the yachtsman and forms one of the town's greatest attractions.

The main avenues that run parallel with or intersect the river are all 100 feet wide, except Beach street which is about sixty-five feet, but has a half-mile of open, beautiful water abutting upon its eastern side, where the salt waves ebb and flow and along and across which comes the cooling, invigorating and health-giving breezes from off the wide Atlantic, which temper and render the Halifax climate one of the most perfect in the world. Daytona has many miles of well-graded, macled and shelled roads and streets, rendering it the

Wheelman's Paradise
and added to these, but a mile away, are thirty miles of smooth, hard beach, that affords an unrivalled course for long-distance cycling and driving on automobile racing. No town of equal size, North or South, numbers so many wheelmen, and cycling is a favorite pastime with the tourists summer and winter.

The Beautiful Cottages
that have been erected during the past years and are being built are rendering Daytona as famous for its fine homes as for its beautiful river, trees and avenues, and they are adding yearly to its attractions.

Not the least of these attractions to those seeking homes in the South, and ranking second only to healthfulness and perfection of climate, is the fact that its population is chiefly composed of cultivated and intelligent people, accustomed to the refinements of home and social life. Added to these features are good churches, good public and private schools, stores, hotels, laundry, meat markets, novelty works, an opera house, electric lights for street and house illumination, a good telephone system, ice factory, Lily Water Works, and hot and cold baths, etc., and everything else can be procured that is necessary to make life comfortable. An important feature in the healthfulness of this town is the

Water Supply
which is derived from numerous flowing wells, of which there are probably 300 in the corporate limits. This flow is secured by boring wells to the depth of from 80 to 120 feet, passing through several strata of rock, and this depth assures purity from all surface contamination. The water is slightly impregnated with magnesia and iron, and holds sulphur in the shape of gas, which soon passes away.

The Population of Daytona
proper is about 1,800. Added to this is a suburban population on main shore and peninsula of about 1,000 at Kingston, Blake, Old Seabreeze or Goodall, Seabreeze and Silver Beach, which are properly a part of the town and population.

Daytona Beach
lies one mile east of the town. It is approached by three good bridges over the river and well-graded avenues, and is the principal summer resort south of St. Augustine. It has more tourists during the summer than all other places south of that city combined, and is also becoming a favorite winter resort. The beach is wide, firm and smooth, by many considered the finest in the world, and the sunbathing is safe and excellent summer and winter. People who have tried Northern and Western summer resorts declare that there are none so perfect as comfort as Daytona beach.

Automobile Race Meet.
The Florida East Coast Automobile Association conducts an annual race meet on the beach, which has now a universal reputation as the greatest automobile race course in the world. The Daytona-Ormond Beach is hard as macadam, and an ideal stretch of thirty or more miles without a break makes it the natural racetrack ground for America.

At low tide the beach is bare for 300 feet and neither carriage wheel, bicycle or pedestrian can make a hardly visible imprint on the smooth and well-packed sand. It is no uncommon sight to see sail-rigged bicycles speeding with the velocity of the wind before a stiff breeze along the smooth beach, thus affording the most exhilarating sport known to man. Besides these, miles of hard-shelled, palm-fringed boulevard bring the lovers of

M. B. AULTMAN

Major J. A. Crews, representing the Jacksonville Times-Union, is in the city today.

C. H. Knappe, manager of The Charleston, spent Monday and Tuesday in Jacksonville.

A jolly crowd from the Morgan House had a skating party at the rink at Daytona Beach, Monday evening.

Mrs. E. R. Jefferson, of Montclair, N. J., has arrived for the season. She is occupying her home on North Beach Street.

Mr. and Mrs. Charles Strebel, a prominent couple hailing from Cincinnati, are at The Desland, where they expect to spend some time.

Mrs. B. C. Rawlings and Mrs. M. C. Gibbs, will arrive here on Saturday from Virginia, to spend the winter. Mrs. Rawlings is the mother of Dr. Rawlings.

A. Hillard and family have arrived from Dickinson, N. D., to spend the winter. They are occupying a portion of the Beardsley house. Mr. Hillard is president of the First National Bank of his home town.

Mrs. Sue Jones, Miss Grace Moore, of Dawson, Pa., and Miss Ida M. Smith, of Braddock, Pa., compose a trio of pleasant people who are at The Ridgewood for an indefinite stay.

The Rabbit Foot Company, a colored minstrel troupe, held the boards here last evening. They showed under canvas and had a large audience composed mainly of colored people.

The launch Wolverine, belonging to Charles Walters, of Seabright, N. J., has been on the ways at McDonald's Boat Yard for some past, receiving repairs and renovation. A 7-horse power Lozier engine has been installed in the boat. The owner will leave here shortly on a cruise South.

The horses, attached to a bus belonging to Geo. A. Foye, became frightened yesterday afternoon, at the postoffice corner, and turned over the vehicle. The lamps were broken, and the damage amounted to about \$10. The team was frightened by the approach of the five-seated Whipple touring car.

****FOR SALE****—A Stanley automobile in perfect order, 143 S. Ridgewood, 17-ft.

The handsome launch, Katherine, of New York City, arrived in port last night, and tied up at McFadden's Dock. The owner is W. E. Ellsworth, and he is accompanied by E. E. Vankuk. They will remain here until the 24th, when they leave on a trip to Miami. The Katherine is fifty-four feet long, and is equipped with the White Middleton engine.

James R. Mellon, the well-known Pittsburg banker, accompanied by Joseph R. Woodwell, Frank C. McGerr, W. F. McCook and Emil Winton arrived in the city Tuesday and left today in the homeboat Vagabondia, for points south of here on a hunting and fishing trip. The party goes fully prepared to have a good time. The Vagabondia, for some weeks past, has graced the waters of the Halifax.

Shakespeare's Name.

It has often been a puzzle to students of Shakespeare why his name is spelled in so many different ways. Shakespeare himself is said to have signed his name on different occasions "Shakspeare" and "Shakespere," and learned disquisitions have been written to prove which is the proper spelling. None perhaps was more amusing than the "weather" reason given in 1851 by Albert Smith, who averred that he had found it in the Harlequin manuscripts. It was as follows:

How did Shakespeare spell his name?
Ye weather-makers ye change, we say,
So write it as ye please.
When ye some rhyme he mayde hys A,
When wete he took hys E's.

Miles and Roads in Erin.

Irish miles are longer than American miles in fact, eleven of them make fourteen of such as are measured in this country. American travelers soon find this out, and if they are disposed to complain of the character of Irish roads they learn that the Irish think it unreasonable of the stranger to expect both quality and quantity. To one such grumbler the answer was, "If the quality is inferior, we give you plenty of it, anyhow." To another visit of the road the retort was, "Well, what ye lose in the breadth ye gain in the length."

Books were originally made of boards or of the inner bark of trees.
